Subject: Draft Response to Joint SAB-BOSC Review

Dear ECers

Attached below is the report we received from the SAB and BOSC following the July 2012 Strategic Directions meeting. The report contains many recommendations, including some general recommendations for ORD as well as specifics for each of the six research programs.

Also attached below is our draft response to the report, which has largely been prepared by the NPDs with input from me. This is not yet a polished draft, so please do not be concerned about typos, etc. However, if you have any major comments about the content of the response, please send them to Gail Robarge and Stacey Katz by Tuesday, December 11th. Feel free to share within your organization as necessary, but we request only a single composite response from each Lab, Center or Office.

We need to complete our revisions of this document in December and submit to the Administrator in early January.

Thanks

Bob
